ACCOMODATION IN THE WOODEN HUNTING CHATEAU AND BREAKFAST

The wood hunting Chateau in an old postcard

We recommend a stay in a wooden hunting chateau surrounded by deep forest and swamp. The area near the hunting chateau was uninhabited for a long time. In the XIX Century a noble man had a hunting lodge erected there and a saw-mill built somewhere near. At the beginning of the XX Century other five Swiss-Tyrol log cabins were built and a local guide book was published for the guests. The park around the lodge was designed in a romantic style with solitary trees in the middle of wide meadows. The park is characterized by its high altitude (around 800 mt. a.s.l.) and by the presence of exotic wood species. Nowadays the wood hunting chateau has 17 rooms well equipped, a central hall with a fireplace and a summer terrace.

A pleasant accommodation is provided also by a hunting cottage with 7 rooms well equipped, a kitchen, a dining room and a spacious hall. A rich breakfast says good-morning to the guests of the hunting chateau and cottage. Lunch and dinner a la carte in below described restaurant.
