

WHITE TAILED DEER HUNTING

CZECH REPUBLIC

FREE RANGE

OFFER N. 1 – FREE RANGE

HUNTING AREAS

White-tailed deer hunting days take place in two areas - free-range with a total size of about 4000 ha about 60 km south-west of Prague. These hunting areas are unique in the Czech Republic because white-tailed deer are found here. This deer, which is abundant in North America from where it was imported to Bohemia in the 19th century, is very difficult to find elsewhere in continental Europe (in free range). In addition to the white-tailed deer, further games in these hunting grounds are fallow deer, red deer and wild boars.
